

## Pooles Park Toilets

The Pooles Park deluxe model (1876-1938). Here photographed in 1938 shortly before its final flush.

Pictures from the outdoor loos in the playground. Already condemned when these photos were taken in 2008. On the left are the girls and on the right the boys.

Boys loos on the ground floor in what was the Infant school. The sign appears on the inside of the door of several of the partitioned loos.
